Communist China's Telegraph Rates

REF : CIA/FDD Sum 709, 7 Nov 55, Weekly Information Report on Communist China (71), p. 43, C.

1. Reference contains an article titled "Rates for Military Telegraph Traffic Given," Shanghai, Wen-hui Pao, 25 July 55. Though it is stated that rates were reduced the actual rates are not given. This raises the question whether actual rates were given in the article or not. S/COM requires actual rates in determining revenues received and economic aspects of telecommunications. If the rates were given or any additional information which might shed light on the amount of reduction available it would be of real benefit to S/COM.

2. For additional information please contact Mr. [REDACTED]
x2841, S/COM.
